

JINDAL ASSOCIATES

WHERE VISION MEETS REALITY

About Us

Jindal Associates has been a leading Project Management Consultancy with pan-India operations, specialized in Project Management in end to end construction and Technical Auditing.

Our expertise spans across planning, execution, and commissioning, as well as the maintenance, finishing, and operation of diverse projects. We offer comprehensive, client-centric project solutions tailored to unique requirements, drawing from extensive experience in sectors such as civil structural works, MEP services, interior fit-out works, hospitality, housing and banking including pre planning and quantity surveying.

At Jindal Associates, we craft customized construction and project management strategies to address the specific needs of each client and industry. We ensure efficiency and precision in our work by leveraging advanced technologies and project management systems (MS Projects, Primavera for management works, site and cost management). Our strong network of trusted vendors and subcontractors further enables us to deliver high-quality materials and timely execution within budget. Committed to excellence, we consistently aim to exceed client expectations through innovative designs, superior quality, and punctual project completion.

Our Vision

We aim to be a leading consulting firm in project management and construction, by delivering well-managed projects on time and within estimated budgets, while maintaining clear and consistent transparency throughout the process. We aim to set benchmarks in quality and service, establishing sustainability, profitability, and a client-focused approach. We thrive on challenging projects that inspire us to push the boundaries of creativity and innovation.

At the core of our mission is delivering unmatched value, exceptional quality, and outstanding service.

Our Clients

Testimonials

"We were facing challenges in preparing the BBS for our project in Pune when we reached out to him. It took him 5 months, but he not only completed the work successfully, but also ensured it was justified and reviewed by the clients. I highly recommend Jindal Associates to anyone looking for Quantity Survey services for buildings."

Gopal Singh Gangola
(Assistant General Manager
Sawhney Buildwell LLP)

"During the construction, Jindal Associates worked closely with our team, and the communication was excellent. As expected, some changes to the plans were needed, and they were always helpful, offering suggestions and alternatives. Most importantly, they built our confidence by contributing to our ideas and guiding us through any challenges. Jindal Associates is a quality company with skilled professionals, high standards, professionalism, and competitive pricing."

Jaspreet Singh Sehgal
(Managing Director Gyan
Constructions)

"Throughout the construction process, Jindal Associates was efficient, approachable, and flexible. We felt we were receiving great value and strong support. They ensured continuity with on-site personnel and management, with Deepak Jindal overseeing the entire project. Jindal Associates is a top-quality organization, and we would not hesitate to recommend them."

Mohita Negi
(Pitara Decore)

From the very first day on site, the team showed their commitment to carrying out the contract professionally and successfully. Today, we are proud of the home stays we've build. We have visitors every week, and most of them ask, "Who facilitated to build these?"

Smarty Garg
(Managing Director IGPL)
